NOROO CHEMITHANE CUF-108F 2K URETHANE TOPCOAT MATT BLACK 3.2L

Premium 2K acrylic urethane topcoat in matt black, designed for industrial and automotive applications requiring excellent durability, adhesion, and chemical resistance.

Noroo Chemithane CUF-108F is a high-performance two-component urethane coating that provides superior weather resistance, strong adhesion, and long-lasting colour stability. Ideal for steel structures, machinery, and general industrial use where a tough, protective finish is required.

KEY FEATURES

- 2K acrylic urethane system
- Matt black finish
- Excellent adhesion to steel and primed surfaces
- High resistance to weathering and chemicals
- Durable, long-lasting protective coating

MIXING RATIO

- Paint : Hardener = 4 : 1 (by volume)
- 3.2L paint requires 0.8L CU-11 Hardener
- Optional thinner: 10-20% depending on application

DRYING TIME (APPROX.)

- Set to touch: ~30 mins at 20°C
- Dry hard: ~5 hours at 20°C
- Full cure: up to 7 days
